EXECUTIVE INSTITUTE

EXECUTIVE INSTITUTE

2022-2023

Program Overview
Cohort V

"Applying to the Executive Institute is the best investment you can make for your career and for your organization. You will learn new skills, meet incredible people and will be a much better leader at the end of the program."

Frédéric Leduc
Co-Founder, Immune BioSolutions
Board of Directors (Chair), BIOQuébec

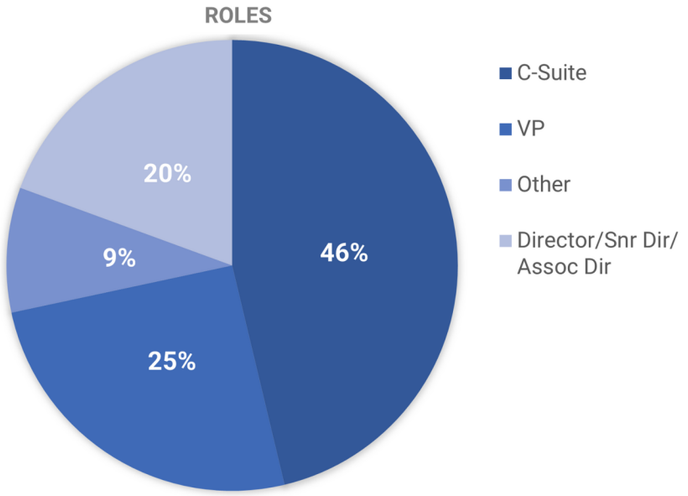
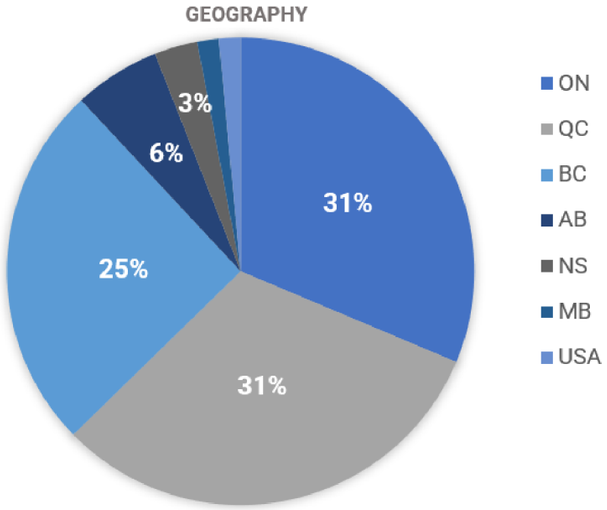
The adMare Academy Executive Institute

A custom-designed program that is focused on advancing leadership capacity amongst Canadian life sciences professionals. This program offers the unique opportunity to develop your leadership skills alongside other leaders in the industry and learn from their experiences specific to the Canadian life sciences ecosystem.

Open to a maximum of 20 participants annually, the program is targeted at mid-career professionals (i.e., minimum 10 years' experience) from across Canada who have been nominated by their employer as having C-suite potential or are currently in C-suite roles. To foster a wide range of connections across the entire Canadian life sciences ecosystem we will look to accept only one participant per company.





We've Trained Executives From

GlycoNet, SIERRA ONCOLOGY, BioCanRx, PRECISION NANOSYSTEMS, TURNSTONE BIOLOGICS, APPILI THERAPEUTICS, STEM CELL NETWORK, AmacaThera, DRUGBANK, CGEn, EMERGENT Contract Development & Manufacturing, REPARE THERAPEUTICS, ImmunoPrecise Innovation Accelerated, IRICoR, XENON, therapeutics, imv, Takeda, Santen, Notch THERAPEUTICS, STEMCELL TECHNOLOGIES, medicago, Total Flow MEDICAL, DOMAIN THERAPEUTICS NORTH AMERICA

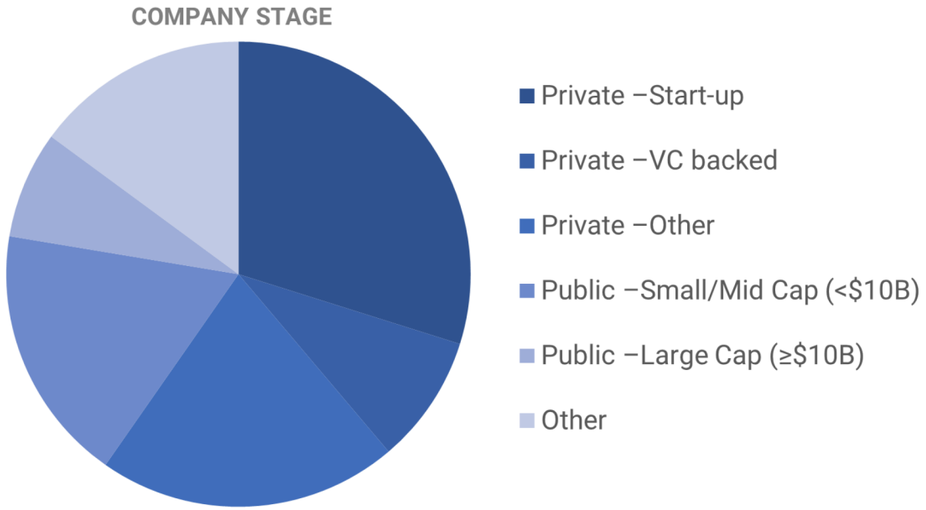
Build Your Leadership Network

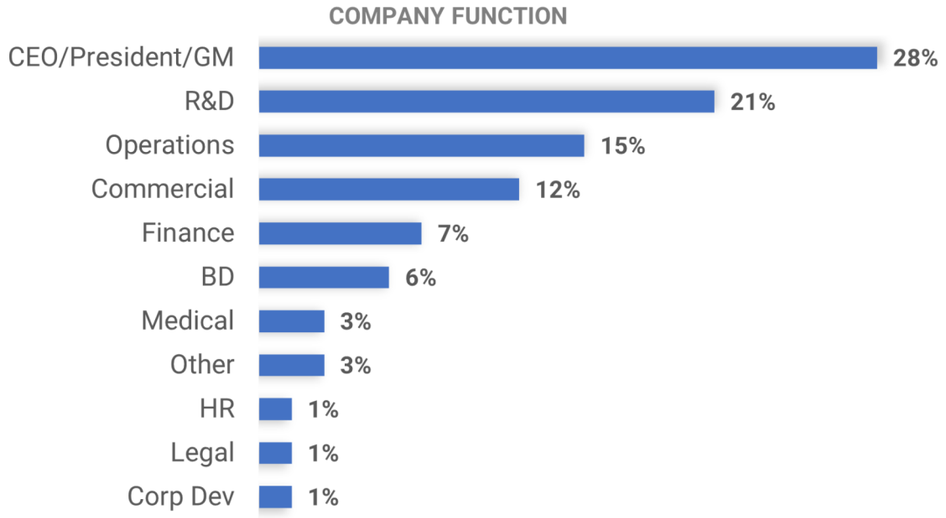
By participating in the Executive Institute, you will be joining an elite network of <100 current trainees and alumni leading innovation in life sciences companies across Canada. The adMare Academy helps to support building lasting connections by engaging alumni and other industry leaders to share their knowledge and also connect with current trainees at Executive dinners or other events throughout the program.

Alumni have joined the program from start-up companies through to multinational corporations, as well as not-for-profit enterprises and other players in the life sciences ecosystem, and are responsible for a wide variety of organizational functions.

"Leadership is a continual learning process and the adMare Executive Institute provided me the opportunity to enhance my skills as a future leader. It is also a great platform to meet new people of different backgrounds within the life sciences community, build a network and share knowledge and challenges."

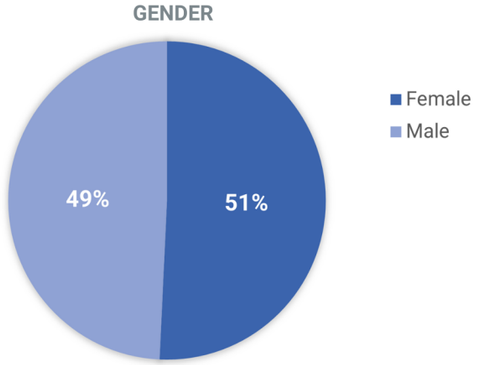
- Naveed Aziz, CEO, CGEn





Building Diverse Talent

The adMare Academy Executive Institute is firmly committed to addressing issues of gender disparity, and to supporting diversity in the Canadian life sciences ecosystem. Specific focus will be given to ensuring the inclusion of women and other under-represented groups.



"The adMare Executive Institute provides a great platform to build the next generation of leaders in the biotech sector, which is really needed in Canada, because it will prepare us for the onslaught of great technologies that are coming to the market."

- Stéphanie Michaud, President and CEO, BioCanRx

Cohort V Program

The Executive Institute program includes 5 in-person sessions held alternately in different cities across Canada (Montréal, Toronto, Vancouver, Calgary), as well as in-depth assessments, online learning, virtual one-on-one executive coaching, and peer accountability groups. One of several enhancements coming to Cohort V is that sessions will be held alongside key industry events, with access to those events, including the Bloom Burton Healthcare Investor Conference and the BIOTECanada Investor Summit.

Key dates include:

- Oct 3: Program Kick-off (LIVE Online; 10:00-11:30 am PT/ 1:00 -2:30pm ET)
- Nov 15-16: Session 1 (2 full days; Montréal)
- Jan 23-25: Session 2 (3 full days; Calgary)
- Mar 1-2: Session 3 (2 full days; Vancouver)
- Apr 27-28: Session 4 (2 full days; Toronto)
- May 31-June 1: Session 5 (1.5 days; Vancouver)

Applications will be open until August 5, 2022.
Selected participants are expected to be notified by August 31, 2022.
All applications must be made online at www.admarebio.com/en/talent
